

# Real Life Relationships

---

## Designed for Connection

### Genesis 2:18-25

God created us to live connected with Him and others.

1. Connection is God's design, not man's invention.
2. Connection is more than physical proximity.
3. Connection reflects God's safety and love for us.

Where am I living relationally isolated right now?

Am I settling for surface relationships instead of biblical connection?

Am I allowing the gospel to heal how I relate to others?

Who is God calling me to move toward instead of away from?
